REPUBLICAN ASTATE CONVENTION.

It reordered that a Convention of the State be held at Parkersburg on wednesday, July 20, 1884, at 180 o'lock A. M., to meminate candidates for Governor, fisto Euperintendent of Prec echools, Andley, Tressure, Allongey-ceneral, and two Judges of the Euperine Court of Appeals, to be voted for at the general election to be held on the found at the general election to be held on the found at the general election to be voted for at the Precidential election to be held on the found and the second and an unstained banner to join in Nember next; to select a State Central Committed, and to transact such other business as my Republican triumphs of October and Nowember next to restate or the precidence of the control of the second and an unstained banner to join in the rejoicings of ultimate success in the Republican triumphs of October and Nowember next to select a State Central Committed to the precidence of the control of the co

es, and to transact with their billions.

The Republican electors of West Virginia and sill sibler voters without regard to past political additions, who are opposed to the course of the Demonstrate administration of this siste in creating a natic administration of this state in creating a cash in violation of the express provisions of our Constitution; to the express provisions of our Republican Executive Committee at Graf Constitution; to the opposite to the unequal and burdersome taxation caused by the supelmental assessment order of the present administration; all who know the lowest transition compatible with the public interest; of elevating and eignifying American Labor; protecting and extending home indiance the propie; securing fire suffrage and an house committee of bandots; electually protecting all naves and the people; securing fire suffrage and an house committee of bandots; electually protecting all naves and the propie; securing fire suffrage and an house committee of bandots; electually protecting all naves and house committee of bandots; electually protecting all naves and house committee of bandots; electually protecting all naves and house committee at Graf ton, and which was accepted by the Committee of the Greenback Labor party, and which therefore constitutes the Grafton agreement.

Respired.—That the Greenback Labor party shall have Anditor, Tressurer, and Superintendent of Schools, provided the committee of the process of the pro

early action in the matter of holding county meetings for the purpose of appointing relegates to the Eure (coventian, and that one delegate for ever) me hundred votes cast for Garfield and Arthur be the baris of sepresents tion to the State Convention By order of the state Central Committee W. J. S. Cow D. N. Secretary.

Republicans of west Virgi. is to the Front.

Readers of the INTELLIGENCER will certify that within the last ten days we have, in corjuction with leading Republicant throughout the State, endeavored by conciliation to bring about conditions by was Chairman of the Grafton Conference, which fusion would be a success in this and knows all that was said and done in Siate. We have even gone beyond our own judgment in this matter, in deference to the wishes of others, in the bope that Judge Maxwell's nomination, if it were deemed wise, would beal up all the breach-

square understanding at Martinsburg and Grafton was, that there would be no fusion except upon the State and Electoral tickets. There was no understanding whatever sa to Congressmen or members of the Legislature, or for local officers. Emboldened by their success at Buckhannon, and the tame submission to that outrage by a large number of Republicans throughout the State, among whom are Republicans who threaten to bolt if Judge Maxwell is not nominated on the 30th inst., this Green back-Labor party, if the Standard reflects its sentiments, now says that it will not come up to the work unless it has an equal divide all round. It repudiates the agree ments it has entered into through its lead ers, unless it can secure conditions and concessions which it voluntarily abandoned and relinquished at the time it made those agreements.

We do not desire to be harsh in criticism of this course, but to call it a mild species of blackmail would not state the case too strongly. This Greenback business has received entirely too much attention, and too much importance has been given to it that there are "15,000 to 20,000 Greenback votes in this State." This is entirely misleading, and not warranted by the facts. The Greenback vote per se does not exceed 2,000, and has always been the disturbing element in the Greenback Labor party. Its leaders, with honorable and conspicuous exceptions, are a lot of broken down politicians, impecunious blatherskites, and political cranks. As a general thing they are free traders; and their fusion with the labor reformers has always been a drawback to that noble organization, the Kuights of Labor. Since the decision of the Supreme Court on the Legal Tender Act there has really been no reason for the existence of Greenbackism. Besides Greenbackers per te, are almost uniformly free trailers, and if they are honest, which we very much question, they should belong to the Democratic party. They have nothing in common with the present fusion movement in this State. It is to them, and not to the Labor Reformers, that we owe our present confesion.

The Labor Reformers number 10,000 votes in this State. They are all protec-

tionists, and belong by political affiliation with the Republican party. They can go party must gravitate to us. Stripped of all

him as a Republican, and not because he bappens to be the candidate of the Buckhannon convention. If we nominate Lahor Reformers, it must be because they are Republicans. In this way only do we see a clear field for a fair fight. In this way only do we see the Republican party preserved for future usefulness. Planting itself upon its noble platform, adopt vember.

That our readers may know we speak from the record, we present herewith the final resolution which was submitted by the

who have the lonest taxation compatible win tempelic interest; of elevating and dignifying americal habor; protecting and extending home industries; giving free pupi ar education to the masses of the people; recurring free suffrage and an honest counting of basious; electually protecting all automatically and the two pection of our common country; and who desire to promote friendly feeling and perresevent harms my throughout the State by and the people and principles, are cordially invited the convention and participate inited the convention and participate inited.

The nomination of General Ruller for the convention of the sectors, the latter being considered all important. The nomination of General Ruller for The nomination of General Butler for

President, by the Greenback party, has put out of the question fusion on the electoral ticket.

THE PUSION BUMENE. 4 Greenback Ultimatum Isaaced to Con-te Mulative Republicans.

Parkerburg state Standard (Greenback Organ.)

We publish elsewhere in the Standard

an open letter, written by Mr. M. C. C. Church, of this city, to the editor of the Wheeling INTELLIGENCER. Mr. Church relation to fusion. As we left the con-ference before it adjourned, we did not see the written arrangement entered into, but what he outlines in his open letter is quite different from that imparted to us by those

dee med wise, would heal up all the breaches and make our success in Ocober a healthy and veritable result for November. But the stricle which we publish elsewhere from the Parkersburg State Standard, the organ of the Greenback Labor party of this State, has taken from us all hope of seeming the desired result. It is now a question whether the integrity of the Ripublican party is to be successfully assentied, its freedom of action taken away, and its defeat absolutely secured at the October election—if not its ultimate destruction.

There have been hints and inneadoes given out by that paper which go show that some feaful mismanagement has occurred in which leading Republicans have lent their influence in placing Judge Max well in the field in a manner that was not contemplated at Martinsburg or Grafton, and the effect of which has tended rather to the injury than to the benefit of the Republican party—and realy to the injury of Jadge Maxwell's prespects for nomination. The plain square understanding at Martinsburg and producing classes of the equanty are watch-

of the electoral vote. We further know that a large msj rity of the laboring and producing classes of the equatry are watching and praying for some turn in political sidiaris to take place that will bring relief to them and the overtaxed people. In view of all this we feel inclined to waive our own personal feelings in the matter and yield to the demands of our friends, if substantial gains can be secured for the welfare of our fellow ma.

gains can be secured for the welfare of our fellow man.

We say irankly that should the members of the saveral conventions called to meet in this city, on August 5, deem it cost that a union of forces on an equitable basis be advisable, we shall acquirece to the voice of the people, and support it willingly, or retire from the field of journalism.

But in yielding our views as to he policy and propriety of a fusion icket, the Republican leaders will be required to concede to a fair and conitable division of the electoral, Congressional and Senatorial tickets, and, inseruch as they have declined to divide the county ticket of Wood, we shall insist on the endorsement of G. L. Spence for State Senate

Rubbard for Congress.

We are glad to learn that Hon. W. P. Hubbard, of Wheeling, is favorably spoken of as the next Republican candidate in this Congressional District. Mr. Hubbard is deservedly popular, and has few, if any, equals in the State. Gen. Golf has been regarded by many of the party as the most available candidate, but has expressed his desire to retire to private life. He has served with credit to himself and satisfaction to his negule, but say it is his profess. served with eccut to himself and satisfac-tion to his people, but as it is his prefer-ence to become a private citizen he should not be imposed on. In the person of Hon. W. P. Hubbard his piece will be fully filled, and the Republicans can feel scarred of success in the sweat of his candidacy.

itionists, and belong by political affiliation with the Republican party. They can go nowhere else if they seek their interests. No matter what course the Republican party pursues in its convention on the 30th, this element of the Greenback Laber party must gravitate to us. Stripped of all dispoises, the Standard's pretensions are resolvable into mist, and the huge idol to which some Republicans have been bowing down is reduced to a miserable felich. We had hoped that Judge Maxwell could have come into our convention with such backing as would have promised well for his election in the event of a desire to mominate him. It is evident, now, that he has no such following; that to get, it the Republican party must stop down and out, and give place to a gang of thirsty office seekers who are willing to betray the laboring man that they may be foisted into power and place.

In view of the above statements, and of the part we have taken to bring about har monitous results, we have a right to be heard in what we believe to be the trate policy of the party at the coming convention, to-wir. The whole fusion movement should be thrown overboard, and a clean cut ticket put in the field—no compromises, no fusion anywhere—that we take the cut ject up, de now and deal with it from a Republican and not because he happens to be the 'can deal party, and to him, the yeteras attributed the noise.
